It's about how I want to spend my time.

“ I have never felt better. Thank you Dialyze Direct. ”

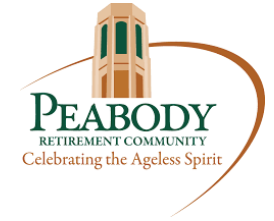

About Dialyze Direct

Dialyze Direct is the nation's largest provider of staff-assisted home dialysis in skilled nursing facilities. Improving quality of life is at the heart of our mission. Our comprehensively trained staff delivers dialysis with an approach that helps patients thrive during their stay in the nursing home. We offer gentler dialysis treatments that are tailored to the unique needs of nursing home patients and clinically proven to deliver better outcomes. Dialyze Direct currently cares for patients in more than 200 locations across the United States.

DARE TO CARE DIFFERENTLY

Exclusively brought to you by Dialyze Direct

Gentler, more comfortable onsite dialysis for residents

Gentler, more comfortable dialysis without leaving the facility

Dialyze Direct provides home dialysis treatments in your nursing facility using the most advanced methods and technology. Research shows that these shorter and more frequent dialysis sessions (pursuant to physician's order) result in better health outcomes.* Plus, they help you make the most of your time in at the facility.

Improved health outcomes

- Reduced recovery time after each treatment
- Reduced blood pressure
- Decreased medications
- Reduced stress on the heart
- Increased fluid removal
- Improved anemia management

Better quality of life

- Decreased exposure to contagious illnesses, including COVID-19
- More personalized treatment by familiar staff
- No waiting for transportation to/from an outside clinic
- No missed meals, appointments, visits or leisure activities
- Recover in the privacy of your own room after treatment

**My dignity
is in my hands**

**“ I feel better
with more
frequent
dialysis. ”**

A proven model

At Dialyze Direct, we are committed to improving your quality of life.

Everything about how we do dialysis is informed by this priority and is our only measure of success.

Our unique model of onsite dialysis produces the best results for patients. You didn't choose to go on dialysis, but you can choose how you get it, and that can make all the difference.

Your time on your terms

Treatments typically last three hours and 80% of patients recover within 1 hour.*

Compare this with time consuming traditional outpatient dialysis. Travel, long treatments and lengthy recovery times leave little time for making the most of your rehabilitation stay. With onsite dialysis, reclaim up to 20 hours a week to focus on recovery and leisure activities.*

**Post-dialysis recovery time in ESRD patients receiving more frequent hemodialysis in skilled nursing facilities,” Hemodialysis International, April 6, 2022.

DARE TO CARE DIFFERENTLY

The benefits that make us better make you better

Eliminate time, stress and energy spent traveling to outpatient facilities for dialysis, while minimizing COVID-19 infection exposure.

Your treatment is performed by experienced, highly trained professionals using state-of-the-art dialysis technology.

Many patients experience better health outcomes, including better control of hypertension and anemia; less fatigue; fewer medications and dietary restrictions and reduced rates of rehospitalization.
